Flying bird breeding colony

- Black-browed albatross
- Grey-headed albatross
- Southern giant-petrel
- Wandering albatross

Penguin colony

- Gentoo penguin
- King penguin
- Rockhopper penguin
- Royal penguin

Seal colony

- Fur seal
- Southern elephant seal

Wildlife locations may vary within a season or from season to season.

Rockhopper and royal penguins may be found at the locations indicated from about late September to April. The other penguin species and the seals may be found at the locations indicated at any time of the year.

Fur seals haul out at the locations indicated and breed at Hurd Point and three locations north of the station: Aerial Cove, Goat Bay and Secluded Beach.

Southern elephant seals haul out and breed anywhere on the east coast of Macquarie Island and at the areas indicated on the west coast of the island.

Flying bird species may be found at the locations indicated during the following time periods:

Black-browed albatrosses	Sep to Apr
Grey-headed albatrosses	Sep to May
Southern giant-petrels	Sep to Apr
Wandering albatrosses	all year round
Light-mantled sooty albatrosses (breeding on the coastal slopes)	late Sep to May
Northern giant-petrels (breeding on the coastal flats)	late Aug to early Mar
Northern giant-petrels and Southern giant-petrels (non-breeding aggregations)	all year round

Special Management Areas as at September 2012
