**JANUARY 1966-FEBRUARY 1966**  
 ○ NOON POSITION OF SHIP

**AUSTRALIA TO ANTARCTICA**

From latest information available to the Hydrographic Office R.A.N. to 1963.

For abbreviations see Catalogue and Index of Australian Charts and Admiralty Chart 5011.

SOUNDINGS IN FATHOMS

(Under Lines in Fathoms and Feet)

NATURAL SCALE 1:8,000,000 (at Lat. 50°S)

Projection - Mercator

**CAUTION**  
 The Ocean Current trends generally to the eastward, but is very variable depending on winds. Near the coast the Antarctic Coastal Current which is also influenced by the winds, sets generally in the opposite direction. Little is known of the rates, but they are unlikely to exceed 2 knots.  
 See also Sailing Directions, Currents, etc., for information relating to Currents.
