ANTARCTICA

POLAR STEREOGRAPHIC PROJECTION
SCALE IN LATITUDE 71° 1:20,000,000

STATUTE MILES: 0 100 200 300 400 500
KILOMETRES: 0 100 200 300 400 500

LEGEND			
Coastline (definite)		Exposed rock	
(approximate)		Ice shelf and front	
Contour (approximate)		Glacier	
(conjectural)		Iceberg tongue	
Height on ice, rock, in metres	- 2880 - 3355	Ice cliff or escarpment	
Ice thickness in metres	- [2190]		
Manned station	• MAWSON [AUST]		
Contour interval: 500 metres			

Produced by the Division of National Mapping,
Department of National Development,
Canberra, Australia.

This map has been compiled from the latest information received from the Antarctic Treaty nations.
