

# AUSTRALIAN ANTARCTIC TERRITORY

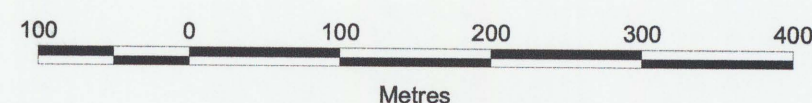

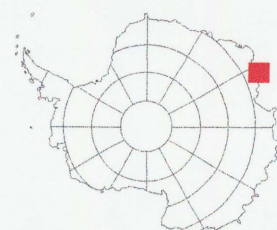

Béchervaise Island  
Penguin Colonies  
MAC.ROBERTSON LAND

## ANTARCTICA

ORTHOPHOTO MAP  
SCALE 1:5000

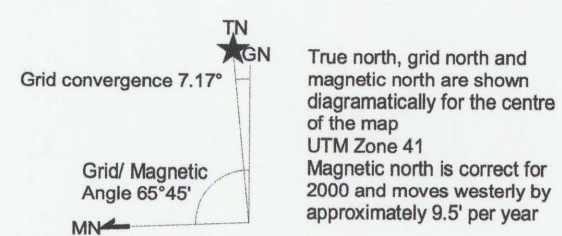

EDITION 1

PROJECTION: Transverse Mercator  
HORIZONTAL DATUM: WGS84  
VERTICAL DATUM: Mean Sea Level - Year 1978/79  
CONTOUR INTERVAL: 5 metres  
IMAGE: Colour aerial photography (format 160mm x 120mm)  
January 1997  
Camera Zeiss UMK 1318  
NOMENCLATURE: Names have been approved by the Antarctic Names and Medals Committee of Australia.  
Published in July 2000 for the Australian Antarctic Division  
Department of the Environment and Heritage (an agency of Environment Australia)  
by Survey & Geographic Information Services  
Hydro Tasmania, Australia  
Ref: G2867\_37 - REVISION 2

### LEGEND

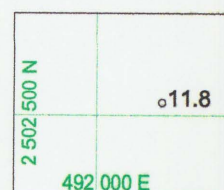

- Index contour
- Approx. index contour
- Depression contour
- Boundary of penguin colony
- Intermediate contour
- Approx. intermediate contour
- Boundary of penguin colony

### HOW TO QUOTE A GRID REFERENCE FOR A PARTICULAR POINT

Grid lines are at 250 metre intervals  
Eg. Spot height 11.8

1. Quote this map ..... Béchervaise Island Penguin Colonies
  2. Locate the VERTICAL grid line to the left of the point ..... 492,000
  3. Estimate the distance (to within 10m) from the grid line to the point ..... 40
  4. Add 2. and 3. together and delete the first and second digits ..... 2040
  5. Locate the HORIZONTAL grid line below the point ..... 2,502,500
  6. Estimate the distance (to within 10m) from the grid line to the point ..... 10
  7. Add 5. and 6. together and delete the first, second and third digits ..... 2510
- Thus the reference for spot height 11.8 is: Béchervaise Island Penguin Colonies 20402510
