

Vestfold Hills

Map 4 of 5

Edition 8

Horizontal Datum: WGS84
Projection: UTM Zones 43 and 44

Produced by the Australian Antarctic Data Centre
August 2017, Map Catalogue Number: 14593

Scale 1 : 50 000

Legend

- Helicopter landing area with facilities
- Route - approximate, Waypoint Use caution
- Vehicular track
- Most tracks beyond station limits are closed to vehicles except for search and rescue purposes.
- Spot elevation
- Sounding
- Stream
- Ice cliff
- Rock cliff
- Contour (20m interval)
- Contour (100m interval)
- Depression contour
- Lake (Elevation above or below sea level)
- Saline lake (>3 grams/litre salt)
- Moraine
- Ice-free area
- Cape petrel nesting area
- Snow petrel nesting area
- Southern giant petrel nesting area
- Wilson's storm petrel nesting area
- Adélie penguin colony
- Southern elephant seal haulout area (Jan - May)
- Weddell seals may be found on sea-ice between the Sørdsdal Glacier and Wyatt Earp Is, especially during the moult period (Dec - Mar)
- Antarctic Specially Protected Area
- Entry is prohibited without a permit. All activities must be in accordance with the management plan.
- Limit of Station Operational Area
- The Station Leader may grant permission for travel within this boundary. Operations outside this boundary require Head Office approval.
- Danger: Hazardous sea ice/tidal race. Check route before proceeding.
- Thin ice. Melts out early. Check ice thickness.
- Area where land crossing with vehicles is acceptable
- Extent of Davis Recreation Limits map
- Topographic data mapped from aerial photography November 1994, April 1996 and February 1997.

True, Grid and Magnetic North are shown diagrammatically for the zone 43 part of the map. Magnetic North is correct for Jan 2017 and moves westerly by about 0.18° per year.
